

MSE Statement on Equity, Diversity, and Inclusion

The Maunakea Spectroscopic Explorer Project comprises a large, international collaboration of scientists, engineers, and educators who share a goal of enabling and executing large-scale surveys of astrophysical objects.

The MSE Project respects all individuals and expects a positive, supportive, and inclusive environment amongst its members.

The MSE Project does not condone or tolerate harassment, bullying, or discrimination of any kind. Members of MSE's Project Office, Science and Engineering Teams shall treat each other with respect at all times regardless of personal characteristics including, but not limited to, gender, race, religion, ethnicity, nationality, sexual orientation, age, career stage, caregiver status, disability, and geographic location.
