

13:04:27 From Nicholas Walton to Jen Marshall(Privately)
: hi jen. will we hear about the design work on pest - it all went a
bit quiet after nicolas left

13:04:55 From Jen Marshall to Nicholas Walton(Privately)
: Yes--stay tuned!

13:05:31 From Nicholas Walton to Jen Marshall(Privately)
: will do

13:42:10 From Stephen Gwyn : You mentioned sky monitors. One
could imagine monitoring the seeing/transparency in real time, and
adapting the exposure time to be changed depending on the conditions,
same as CFHT's QSO-SNR. You could even adapt the exposure time in the
middle of a long exposure.

13:43:38 From Andreea Petric : Stephen that' s an awesome
idea depending on the distribution of magnitudes for the 4000 targets,
certainly something to also tackle in the survey simulations.

13:48:11 From Andy Sheinis : Do we know how well the Th/Ar
reference source is working for ghost?

13:51:54 From Nicholas Walton : i think oneweb could be more
of an issue than starlink.

13:59:51 From Nicholas Walton to Jen Marshall(Privately)
: hi jen ... i have to go now ... dinner calls. also - i might drop
christian surface a line soon - still very interested in MSE!

14:12:35 From Andreea Petric : Apologies if I missed it, but
how much of the software is open source? Can researchers contribute
and work cooperatively on codes/data?

14:13:53 From Andreea Petric : or at least some

14:14:12 From Andreea Petric : seems like the Vera Rubin
observatory

14:14:21 From Andreea Petric : has a very community oriented

14:14:33 From Andreea Petric : user support forum

14:14:53 From Andreea Petric : Got it, thank you!

14:15:01 From Andreea Petric : Sounds great!

14:20:16 From Aprajita Verma to Jen Marshall(Privately) :
hey jen, how many new UK people joined the science team? I think we
were cc'd on a few but not all the requests to join.

14:20:41 From Jen Marshall to Aprajita Verma(Privately) :
8-10 I think, I can confirm

14:20:53 From Aprajita Verma to Jen Marshall(Privately) :
That's good enough - thanks!!

14:22:10 From Jen Marshall to Aprajita Verma(Privately) :
I was right--it was 9 new people

14:23:52 From Aprajita Verma to Jen Marshall(Privately) :
thanks Jen

14:28:38 From Samuel Barden : Thanks!

14:28:44 From Lisa Wells : Thanks All!

14:28:48 From Joan Najita : Thanks everyone!!

14:28:48 From Doug Simons : great job everyone!

14:28:52 From Patrick B Hall : Thanks!

14:29:14 From Marica Valentini : Bye!

14:29:20 From Andreea Petric to Jen Marshall(Privately) :
:)
